Learn, make, and share innovative projects

<https://makespp.com>

We're bringing together 100+ innovative young minds for a day to foster the next generation of technologists and engineers.

Live feedback and adoption of products

By sponsoring MakeSPP, you will be able to display your technologies and products to all attendees. Your company would be able to receive live feedback from high school students as they incorporate APIs or other services.

Brand recognition and exposure

Sponsoring MakeSPP is a great way to not only encourage innovation in STEM, but receive exposure for your company.

Recruiting

Interested in offering internships? Sponsoring MakeSPP will give you all information on attendees, allowing your company to find top talent among high schoolers.

Sponsorship funds will be put towards food, prizes, and organizational costs.
